Top Dose Forms

Flex Tab

The correct dose is only a snap (or two) away with our Flex Tabs. Scoring on both sides offers four dosing options to meet patients' needs. Plus, one 30-count order offers up to 90 doses.

Capsule

Roadrunner's highest-quality compounded medications can be customized to the exact dose needed in easy-to-administer capsules. Versatile dosing options for more clients.

Mini Melt

When a patient refuses to take a pill or has a condition that makes swallowing medications difficult, our Mini Melts are the answer. Mini Melts are specially designed to dissolve rapidly in saliva for simplified dosing. Simply place in your patient's mouth or crush, sprinkle over food and watch it disappear.

Oral Liquid

Our compounded oral liquids begin with high-quality active ingredients and end with stability testing for prolonged shelf life. We offer a variety of sizes and 35+ flavor options to make dosing even easier.

Mini-Tab

Precision dosing for smaller animals. 7mm easy-to-swallow tabs can be reduced further with a tablet cutter for added versatility.

OTI-PACK®

Prepared in a lanolin base, each OTI-PACK® features a pre-filled 3ml syringe with otic applicator for easy application. OTI-PACKs save your clients time and improve compliance.

ezPress Tablet

An innovative way to add easy-to-swallow dosing flexibility to treatments that's ideal for smaller animals. Simply apply pressure to the tab to evenly split.

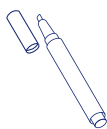

Ophthalmic

Roadrunner sterile ophthalmic solutions and suspension with proprietary delivery mechanisms, are designed to ensure convenient consistency.

Tablet

Larger compressed tablets pack more medicine into fewer doses, making it a go-to solution for larger animals—easy, fast and consistent.

Transdermal ClickDose™ Pen

ClickDose™ Pens make administering transdermals easier, more precise and mess free. An innovative design eliminates errors by dispensing a precise amount of medication with one click. It's that easy. Plus, its silicone tip feels like a finger for stress-free dosing and leakproof cap ensures medication stays fresh throughout use.

Soft Chews

Our improved Chews make dogs and cats think they're enjoying a tasty treat, rather than taking their medicine. Dozens of medications are available in three highly tested flavors that are well-received by patients. Plus, our NEW fresh-lock seal packaging guarantees Chews stay moist with maximum stability until dispensing.
